

Theirs. Mine. *Yours.*

Curated preloved solid-gold jewellery. A fun but well thought-out collection, passed on like an heirloom.

Every piece has *already lived* a life.

It belonged to someone: **theirs**. Then it found its way to us: it became **mine**. Now we get to pass it on to the person it was always meant for: **yours**.

We are not

Sterile, salesy or corporate. This is the passing down of an heirloom, not a transaction.

Inspiration

French Mediterranean warmth, the boldness of the 80s and 90s, playful colour in the spirit of Lucy Folk.

The *mark* & wordmark

Primary lockup — maroon circle monogram + bold wordmark on baby pink.

Reversed — pink monogram + warm cream wordmark on dark ink.

Monogram only — for social avatars, favicons and small spaces.

Clear space & size

- Keep clear space equal to half the monogram diameter on all sides.
- Minimum monogram size: 24px / 8mm. Minimum lockup width: 140px.

Don't

- Don't use cursive, stretch, rotate or recolour outside the palette.
- Don't place the maroon mark on dark ink or maroon; use the reversed pink version instead.

Baby pink, *fun* colour.

Usage: pink is the canvas (about 60%), lime marks the story band, dark ink anchors the footer. Maroon is the accent for italics, links and highlights. Blue, orange and yellow are playful pops; use sparingly. Use ink or maroon text on pink; never light text on yellow or lime.

Easy to read. *Never* corporate.

LOT TAGS & LABELS

LOT 14

System monospace

Kickers, lot numbers, karat and price tags. Uppercase with wide tracking (0.14em).

Rules: no cursive or script, nothing school-like or corporate. Hero: 92px / 0.92 line height. Body: 16–17.5px / 1.5. Kicker: 12px mono, uppercase.

Warm, *storied*, a little cheeky.

Storied

Talk about where a piece has been, not just what it is. Era, karat, a detail worth noticing.

Warm & playful

Like a friend with great taste handing you something special. Short sentences. Plain words.

Honest, not salesy

No pressure, no hype, no countdown clocks. One-of-one pieces speak for themselves.

WE SAY

Gold that's already *lived* a little.

"Forty-five solid-gold pieces, hand-picked from other lives and other decades. No reproductions, no two the same."

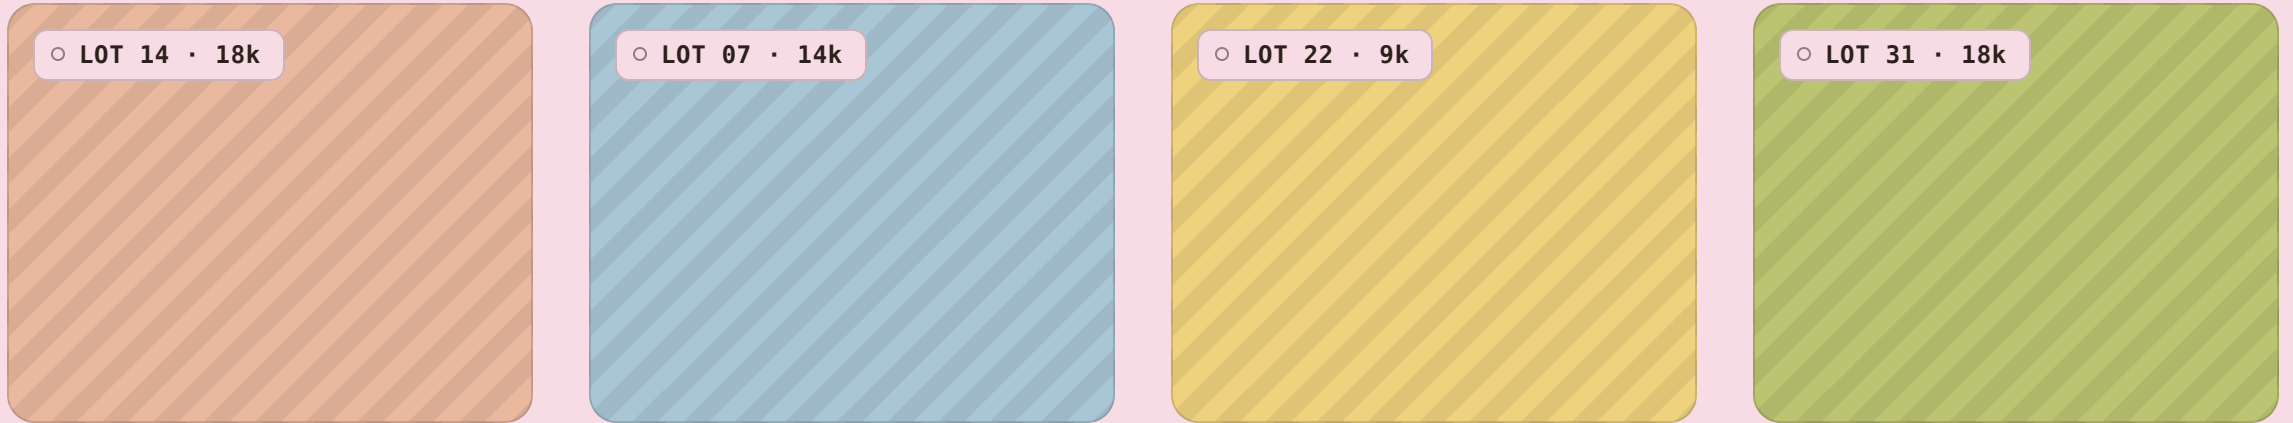

WE NEVER SAY

"Don't miss out! Buy now!" · "Luxury investment opportunity" · "Best-in-class quality" · "Synergy"

Style notes

- Australian English (jewellery, colour).
- No em dashes in copy; use full stops, commas or colons.
- Always "Theirs. Mine. Yours." with full stops; short form "TMY".
- Say "preloved", "solid gold", "one of one".

Real pieces, *real* light.

Placeholder frames: diagonal hatch with a lot tag. Replace with product photography.

Product shots

- One piece per frame, close and sharp, on a soft coloured backdrop from the palette.
- Natural, warm daylight. Show wear, patina and hallmarks honestly.

Lifestyle

- Worn on real people, candid, 80s/90s boldness with French Mediterranean ease.
- Tactile settings: linen, tiles, fruit, old books.

Avoid

- Sterile white-box catalogue shots, heavy filters, stock photography, retouching that hides age.
